

Bistroo

© Design by Dirk Wynants for Extremis, 2018

Love is about looking in the same direction. Instead of sitting opposite each other, you sit side by side at the Bistroo, observing and commenting the world as it's passing by.

All our designs are original creations and protected by intellectual property rights.

Bistroo

The homeowners of this lovely house aspired for their home to be an idyllic, minimalist sanctuary in the center of Melbourne, Australia.

Under the blossoming branches of this 100-year-old rose bush, the loveliest breakfast spot reveals itself. Dream away of what the day yet has to offer just with the two of you at the Bistroo table.

Bistroo

With views over the Japanese mountains of Shizuoka, this traditional arts and crafts school placed some Bistroos in the courtyard to take a peaceful break. Seated shoulder to shoulder, the pupils see the world passing by from the same point of view.

Set against the sleek facade of this Eddy François-designed home, the Bistroo in Pistache creates an inviting retreat—a perfect spot to bask in the sun and lose yourself in a good book.

Bistroo

When you see the Bistroo you will immediately realise what the double 'oo' is all about. The rounded backrests provide support as you sit side by side, watching the world go by. Three legs, two seats

and one tabletop are the basis of this innovative concept. This design makes it perfectly stable on any surface, and it is faster to stack and lock away than individual tables and chairs.

Floor fastening

Our Bistrot picnic table can be fixed to the floor, to prevent them from being moved, or worse, from being stolen. However, attaching it to the floor is not always enough, as bolts can always be unscrewed. We offer a connection piece that replaces the end cap at the bottom of a table leg.
