

Pantagrue

© Design by Dirk Wynants for Extremis, 2014

Pantagrue is the son of Gargantua and a giant too: A Gargantuan round tabletop to gather the whole family, but refined elements and a handy Lazy Susan were added. Besides a picnic version there's also a table and high table. All perfect tools to enjoy the good things in life.

Want to know more? Order the whole story about the giants!

Extremis

→
Pantagruel also serves as a parasol base. The pole fits into the tabletop, leaving all the space underneath for your legs!

At this university in Japan, they know the power of a good round table. Pantagruel picnic tables, scattered across the campus inside and out, are perfect for teamwork, lively debates, or heads-down focused work.

Pantagruel

Hidden behind a stately Bruges facade lies this luxurious urban jungle. Landscape architect Monbaliu created a green oasis with a mix of asymmetrical shapes and exuberant borders and the round Pantagruel picnic as centerpiece.

Extremis

Add a backrest to your Pantagruel benches for extra comfort. These curved backrests follow the shape of the round picnic table while adding a sleek back support.

Pantagrue

The stepped construction of this apartment building by Govaert & Vanhoutte creates an intriguing play of floating terraces. The Pantagrue picnic seamlessly integrates in the design where open facades enhance the wide view of the North Sea, its dunes, and the natural reserve.

Pantagruel

At the HQ of Afas Software in the Netherlands, the employees are enjoying a break on one of the many outdoor terraces. The Sunbrella cushions add a soft yet stylish touch to the Earth legs for ultimate comfort.

Pantagrue

At Endo Lighting in Tokyo, Japan, this indoor patio brings the outdoor elements indoors. The Pantagrue picnic tables bring people together, and its round shape includes everybody equally. The wooden seats and tabletop add a warm touch, while the shadow play adds an exciting element to the space.

The Ena campus in Greece aims to offer a balance between workspaces and break areas.

The Lazy Susan in the center of the Pantagrue table makes sharing easy.

Pantagruel

The Pantagruel round picnic table seats eight. When combined with the wood used for the tabletop and benches it forms a durable outdoor picnic set. Pantagruel also features a Lazy Susan, to

take the hard work out of passing food and drinks around. In addition to the picnic version, there is the Pantagruel table and the high table.

NEN-EN13501-1 A1 Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.

Good to know

- PEFC™ certified wood (Hellwood) originates from sustainably managed forests.
- Pantagruel picnic is fitted with a Lazy Susan, a central rotating tray, to easily pass things through. The Lazy Susan can be fixed for use in public spaces.
- The hole in the tabletop to place a shade in is ø65 mm.
- Pantagruel picnic combines perfectly with Inumbra medium/large & Inumbria large. For both combinations, a connection piece is required.

With Inumbra

With Inumbria

Certificates

- TÜV
- PEFC
- Cradle to Cradle

F.A.Q.

Q: Do you need to oil the wood?

A: Just like other types of wood, wood will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain. Small cracks and crevices can also appear as part of this process. We strongly advise everyone to treat the furniture with our Wood Protector. This 100% natural oil controls the moisture level within the wood, which makes the planks stay stable for longer, and the layer of oil also helps to prevent spilled liquids from being absorbed, so that stains tend to stay superficial. It is best to repeat this treatment at regular intervals.

Maintenance

Find maintenance instructions at the [product care](#) section of [extremis.com](#) for

POWDER COATED PARTS

- Use Extremis multi cleaner, a 100% biodegradable detergent or common kitchen cleaning products. Avoid using aggressive products. These surfaces are best cleaned with a neutral cleaning product diluted in water.

GALVANIZED PARTS

- Clean with lukewarm water and a mild detergent or Extremis multi cleaner.

SUNBRELLA

- Shake or brush off loose dirt immediately.
- Spray Extremis multi cleaner.
- Use a soft brush and make circular movements.
- Let the suds soak in for a moment.
- Rinse thoroughly to remove all soap residue.
- Simply allow to dry.
- It's also possible to put the cushions in a washing machine (max 40°C). Follow the cleaning instruction on the label.
- If the cushion has metal brackets, we recommend turning the cover inside out first to avoid damaging the washing machine. In this case, leave the zipper open about 10 cm.

WOOD

- Clean regularly with mild detergent.
- Thorough cleaning with Extremis Wood Cleaner.
- Oil the wood with Extremis Wood Protector. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- In order to smoothen the surface again after a thorough cleaning, lightly sand your wood with 120 grit sanding paper or a sanding pad.

RECOMMENDED USE

- For Extremis Wood protector:

5 to 7 wood care treatments

2 to 4 wood care treatments

150 - 250 ml for one Pantagruel picnic

Floor fastening

Pantagruel comes with an optional floor anchoring set: four steel plates to be fixed with bolts.

Warnings

General

- Do not use any sharp tools to open the packaging.
- We strongly advise against using power tools.
- Tripping hazard, mind your step.
- Do not put out cigarettes on the table.
- Not graffiti proof.
- Do not leave children unattended whilst playing on the table.
- To avoid danger of suffocation, keep plastic bags away from babies and children.
- Colors can differ over years and from batch to batch.

Product

- Do not stand or jump on the table.
- Do not drag the table, but carry it with minimum 2 people.
- Anchoring the product has to be done by qualified people.
- For anchoring: use suitable bolts or screws from a specialized store depending on the material your terrace is made of.
- There is protection felt for delicate floors or indoor use.
- Do not stand on the Lazy Susan or on the benches.
- The white Lazy Susan reflects in the sunlight.
- Mind your fingers whilst assembling the Lazy Susan.
- Max. 3 people or 240 kg per bench.

Wood

- When delivered, the wood is untreated.
- Wood is a natural material and its look is different for every slat, plank and tree.
- Wood will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- Clean regularly with mild detergent. Never use a high pressure cleaner as this will roughen the wood's smooth surface and irreparably damage the wood's fiber.
- Thorough cleaning with Extremis Wood Cleaner.
- We strongly recommend that you treat your wood with wood protector to protect it from stains - small cracks and crevices can also appear as part of this process. We strongly advise everyone to treat the furniture with our Wood Protector.

Galvanized steel

- Galvanization will become less shiny when used outdoors.
- Flame retarding - NEN-EN13501-1 A1 - Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.
- Possible impurities in the immersion tank can

cause black marks during galvanization, which are intrinsic to this industrial finishing technique.

- White marks on this zinc layer are also intrinsic to this procedure and will disappear when the furniture is put outdoors.
- This industrial finishing technique may result in a rougher surface. This is intrinsic to the process.

Powder coating

- White powder coating requires more maintenance.
- Do not use abrasive scouring powders or scourers as they will scratch the surface.
- Color can fade to some extent when exposed to UV.
- Flame retarding - NEN-EN13501-1 A2-sl - Satisfying the same criteria as Class B for the SBI-test according to EN13823. In addition, under conditions of a fully developed fire these products will not significantly contribute to the fire load and fire growth.
- Dark colors can get very hot in sunny weather.

HPL

- UV color fastness: >6 (EN438-2:27) en (ASTM G53-91)

Sunbrella

- Not waterproof, store inside!
- Shake or brush off loose dirt immediately.
- UV color fastness: 7/8 (ISO 105-B02).
