

BROCHURE

Outdoor + Indoor

lecio, the outdoor furniture specialist who is supplying furniture not just ideally for outdoor use but also for indoor!

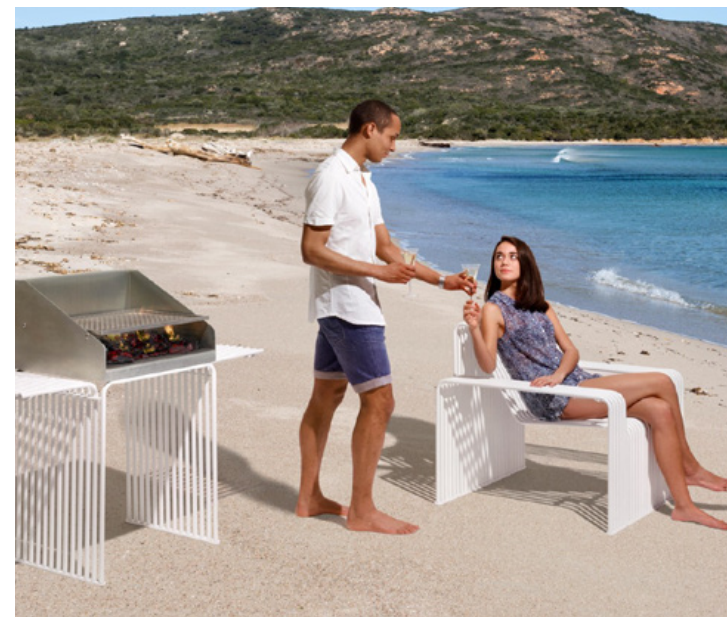

Suitable Material

lecio ensures all furniture are made of suitable material through specialized techniques of production and high level of design skill in order to obtain the optimum value of finished product.

Leisure Lifestyle

lecio provides advise on the concepts of leisure lifestyle living that suits your needs and serves the best to meet your requirements. Our furniture is quality proven for use especially in Malaysia's unpredictable weather.

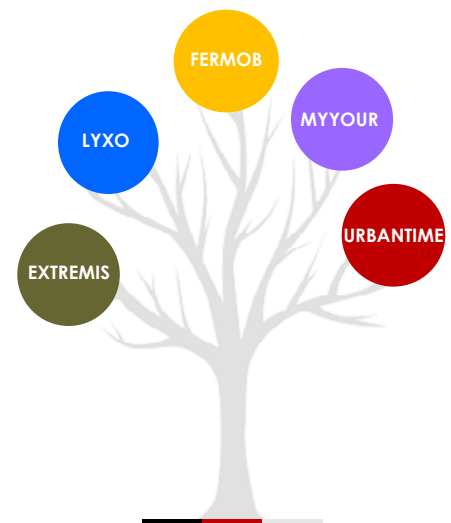

Inspired Outdoor Living

lecio collections have been applied in hotels, resorts, cafés, common area in high rise residential developments, commercial buildings, public areas, private homes and so many more. lecio's high-quality furniture perfectly complement your lifestyle and inspire outdoor living.

With passion, determination, and continuous effort in providing only the best outdoor furniture that will last long in outdoor use, **lecio** has sailed through many challenges and yet keep on moving forward, steadfastly for every new level.

Outdoor furniture cannot be labelled just in name, the quality has to be proven for outdoor use. The ability to withstand and perform in unpredictable weather and outdoor climates are among the most significant factors.

While quality and type of materials used will become the determining factor for how long these furniture will last, Technical know-how, techniques of production and design detailing are the skills, expertise and experiences needed to ensure these furniture possess its optimum value that will finally transfer to end users. These are the values of products that **lecio** is supplying.

TOOLS FOR TOGETHERNESS

Extremis has been developing new ideas only if its both necessary and useful. Only those strong ideas have ability to ripple outward and span decades, rather than years. Extremis is all about transforming radical ideas into game changing designs. These products start the spark of meaningful connections and enhance the way of interactions with each other.

GOOD VIBES DESIGNS

Fermob has been famous for colours and is creating a universal and immediate link between the environment and its habitants, bringing reality to life. The colour charts of bright intense and contrasting colours produce lots of energy when it comes to design a space. These furniture are inspired by the street, improvising and adapting to life itself and its light in weight with different material ranges.

ITALIAN OUTDOOR EXPERIENCE

Myyour has evolved itself over time improving its design and implementing technological innovations alongside its brand identity. Its new identity as editor and producer of furniture and accessories helps to create spaces with strong personality without neglecting its elegance of form and quality excellence thus becoming a successful experience and functional language of outdoor furniture.

QUALITY THAT COUNTS

Lyxo has been transforming an amalgam of plastic materials, curiosity and courage into unique forms of products with functional designs. The dynamic style, attention to detail and study of proportions gives life to unmistakable and decorative shapes of the products. It uses 100% recyclable materials and high quality technologies that brings sustainability to the objects made to last over time.

TIMELESS DESIGN

Urbantime firmly believes that the time spent in public spaces and outdoors deserves the same attention and quality as the time that is spent in homes. Simple and clean lines which blend into the most disparate environments without necessarily dominating them but respecting the beauty that gives identity to our landscape is the sobriety of our products.

Picnic seating typically consists of portable or fixed seating options designed for outdoor gatherings. Finding a place to escape from hectic city bustle offers a moment of comfort and rest at any time of the day.

Instead of leaving a public space blank, we can create foster interaction between people which acts as an oasis of calm where they can take a breath of fresh air. Additionally, picnic seating can be designed for various group sizes, from intimate gatherings to larger parties.

The uniqueness of bar set lies in its elevated seating, versatility, social interaction, modern aesthetic, and space efficiency, making it a popular choice for Cafes and Salons.

The higher chairs can also be pushed neatly under the table when not in use, maximizing space efficiency. The elevated height of high dining encourages a more conversational dining experience. It allows for better eye contact and communication, promoting a sense of intimacy and connection.

Minimal and enriched by distinctive patterns and shapes these products can play a crucial role in uplifting the mood and ambience of any outdoor space. The stylish elegance is also appreciated for indoors.

These products can accentuate architectural features and art works drawing attention to them and creating visual interest and also can be strategically placed that can define different areas within a room or delineate outdoor spaces like patios, balconies and gardens.

Accessorizing a space allow individuals to express their personality, interests, and style preferences throughout their home.

The choice of colors and textures can evoke different emotions and creates an atmosphere whether it's cozy and intimate or bright and energetic.

Age-appropriate furniture can aid in children's development. For instance, a desk and chair designed for proper ergonomics can encourage good study habits promoting better posture and comfort.
